

24 most repeated IELTS Task 2 questions

1. Rapid population growth in cities — 10 appearances

The population of many cities is growing rapidly. What are the effects of this growth on people living in these cities? What can be done to maintain their quality of life?

2. Negative news in the media — 10 appearances

The tendency of news reports in the media to focus more on problems and emergencies than on positive developments is harmful to individuals and society as a whole. To what extent do you agree or disagree?

3. Advertising unnecessary products — 10 appearances

Some people say that the main aim of advertising is to increase the sales of products that people do not really need. To what extent do you agree or disagree?

4. Excessive product packaging — 9 appearances

Some people believe that manufacturers and supermarkets should reduce the amount of packaging used for goods, while others argue that consumers should avoid buying products with excessive packaging. Discuss both views and give your opinion.

5. Spending money to encourage bicycle use — 9 appearances

Some countries spend a large amount of money to make bicycle use easier. Why do they do this? Is encouraging bicycle use the best solution to traffic congestion?

6. Violence in films and computer games — 8 appearances

Films and computer games containing violence are popular. Some people believe that they negatively affect society and should be banned, while others consider them harmless forms of relaxation. Discuss both views and give your opinion.

7. The development of space tourism — 8 appearances

Space travel has been possible for some time, and some people believe that space tourism could be developed in the future. Do you think this would be a positive or negative development?

8. Responsible tourism may be impossible — 8 appearances

In recent years, responsible tourists have paid greater attention to the cultures and environments of the places they visit. However, some people believe that it is impossible to be a truly responsible tourist. To what extent do you agree or disagree?

9. Students struggling to concentrate — 7 appearances

Many students find it difficult to concentrate or pay attention at school. What are the reasons for this problem? What can be done to solve it?

10. Young people spending free time in shopping centres — 7 appearances

Young people increasingly prefer to spend their leisure time in shopping centres instead of participating in organised activities such as sports or music. Is this a positive or negative development?

11. Robots: essential or dangerous — 7 appearances

Some people believe that robots are extremely important for humanity's future development, while others think that they are dangerous and have negative effects on society. Discuss both views and give your opinion.

12. Schools teaching good behaviour — 7 appearances

It is the responsibility of schools to teach children good behaviour in addition to providing formal education. To what extent do you agree or disagree?

13. Copying fashion and consumer habits — 7 appearances

The tendency of human beings to copy one another can be seen in the popularity of fashion, clothing and consumer goods. To what extent do you agree or disagree?

14. Group activities versus individual activities — 7 appearances

Group or team activities can teach people more important life skills than activities completed alone. To what extent do you agree or disagree?

15. Reporting more good news — 7 appearances

The media should include more stories that report good news. To what extent do you agree or disagree?

16. Younger relatives supporting elderly family members — 7 appearances

When elderly people are no longer physically, mentally or financially able to look after themselves, younger family members should be legally responsible for supporting them. To what extent do you agree or disagree?

17. Punishing children or their parents for crime — 7 appearances

Some people believe that children who commit crimes should be punished, while others think that their parents should be punished instead. Discuss both views and give your opinion.

18. University students paying the full cost — 7 appearances

University students should pay the full cost of their education because university education benefits individuals rather than society. To what extent do you agree or disagree?

19. Economic success and a clean environment — 6 appearances

Some people believe that a country can be economically successful while also maintaining a clean environment, whereas others believe that these two objectives are incompatible. Discuss both views and give your opinion.

20. Congestion charges — 6 appearances

In some countries, governments have attempted to reduce traffic by imposing congestion charges during rush hour. Is this a positive or negative development?

21. The decline in handwriting — 6 appearances

Fewer and fewer people write by hand using a pen, pencil or brush. What are the reasons for this? Is the decline in handwriting a positive or negative development?

22. Parents working abroad with their families — 6 appearances

Many parents move to other countries for work and take their families with them. Do the advantages of this development outweigh the disadvantages?

23. Traditional food being replaced by fast food — 6 appearances

In many countries, traditional food is being replaced by international fast food. This has negative effects on both families and society. To what extent do you agree or disagree?

24. The disappearance of traditional classrooms — 6 appearances

The traditional teaching situation in which a teacher and students are together in a classroom will no longer exist by the year 2050. To what extent do you agree or disagree?
